

Boost in value

Abhay Soi has a reputation for turning around hospitals. After uplifting Delhi-based B.L. Kapoor Hospital, Soi has been managing Mumbai-based Nanavati Hospital over the last two years.

Based in the suburbs, this hospital has seen marked improvement after Soi took active interest in it. Rumours are that Soi is now contemplating raising

₹500-700 crore from private equity investors. Given the rich valuations received by Hyderabad-based Quality CARE, a group which was earlier in the year acquired by Dubai-based private equity group Abraaj at an estimated valuation of about ₹1,700 crore, analysts expect a similar valuation for Nanavati Hospital too.
